

WESTERN CAPE
INDUSTRIAL SUPPLIES

Welcome

Your Trusted Partner in Industrial Supplies.
Welcome to Western Cape Industrial Supplies -
your reliable source for high-quality industrial
products and equipment.

We provide everything you need to keep your
operations running smoothly and efficiently

WESTERN CAPE
INDUSTRIAL SUPPLIES

About Us

Western Cape Industrial Supplies is a leading provider of all Industrial and related equipment, and related services. We specialize in supplying, installation, repair's, maintenance, and are committed to delivering high-quality, reliable, and efficient solutions to our customers

WESTERN CAPE
INDUSTRIAL SUPPLIES

Our Vision

- To deliver superior quality products that exceed customer expectations for performance, durability, and longevity
- To build long-lasting partnerships with our clients, providing customized solutions and exceeding their expectations at every step
- To be a leader in sustainable products solutions, minimizing environmental impact and promoting energy efficiency.

WESTERN CAPE
INDUSTRIAL SUPPLIES

Our Mission

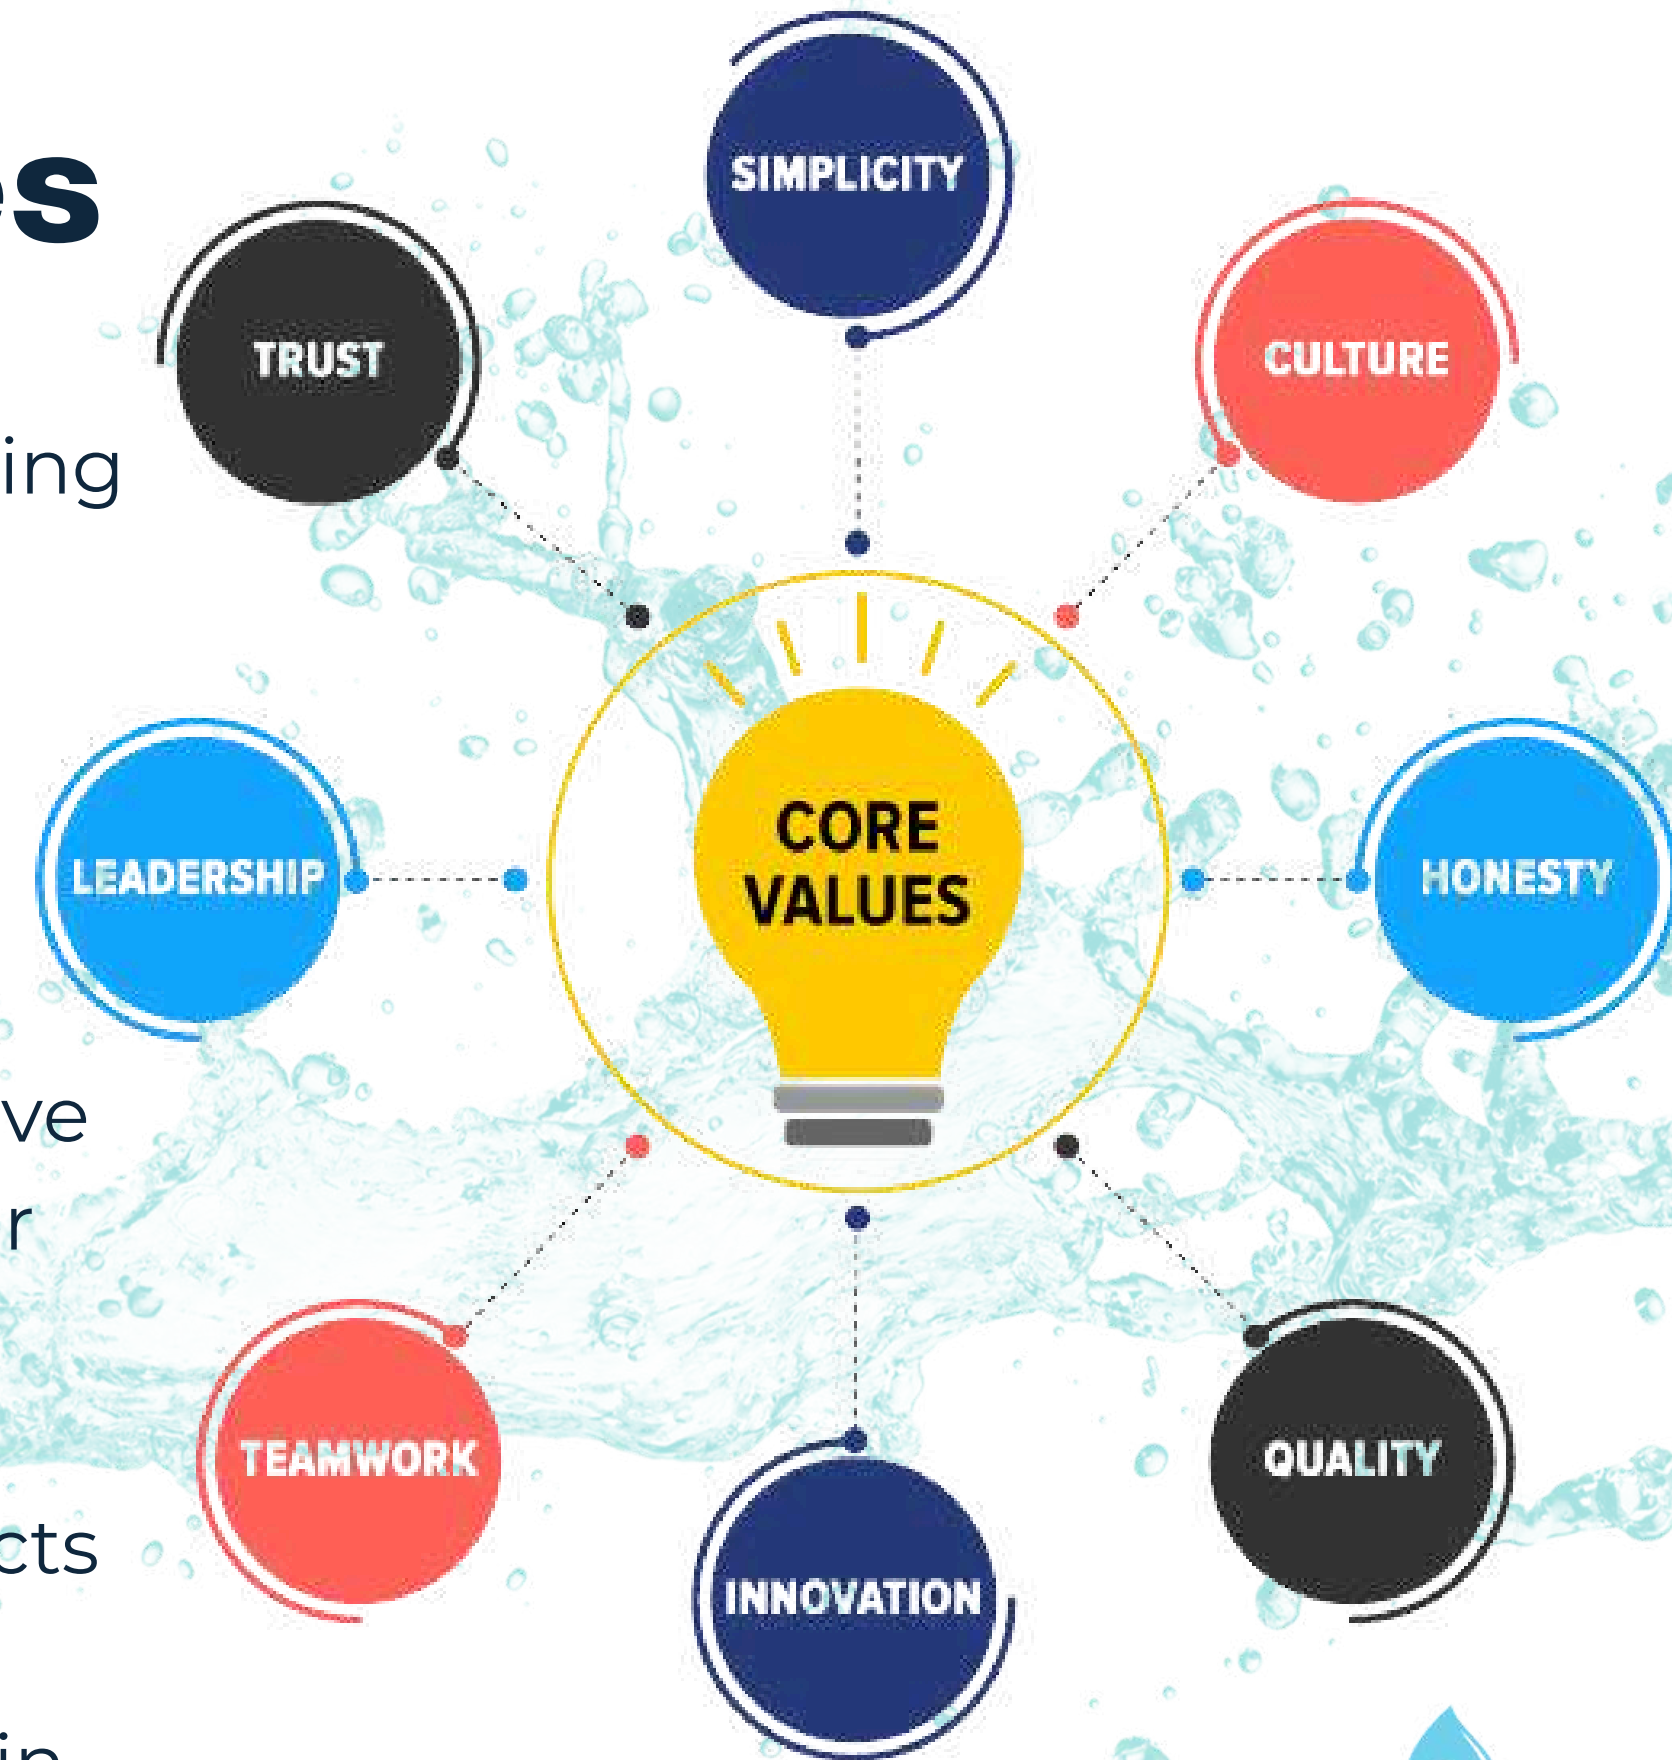

- Our mission is to provide reliable and innovative products solutions that enhance the efficiency, productivity and sustainability of our customers' operations
- We are dedicated to empowering our customers with the most reliable and efficient products, ensuring the success of their businesses and contributing to a sustainable future

WESTERN CAPE
INDUSTRIAL SUPPLIES

Our Company Values

- **Innovation:** Continuously seeking and implementing new technologies and solutions to improve our products and services.
- **Quality:** Delivering products and services of the highest quality that meet or exceed customer expectations.
- **Teamwork:** Fostering a collaborative and supportive work environment where everyone works together towards common goals
- **Sustainability:** Promoting environmental responsibility and sustainable practices in all aspects of our business.
- **Excellence:** Striving for continuous improvement in all areas of our operations.

EBARA

- Founded in 1912 (Japan) – Over 100 years of pump engineering excellence and is the 2nd biggest pump company in the world.
- Stainless Steel Leaders – Pioneered corrosion-resistant pump design.
- Global Reach – Operates in 28+ countries across key industries.
- Energy Efficient – Designed for low power use and eco-friendliness.
- Used Worldwide – Found in skyscrapers, water plants & mega-projects
- Many Ebara pumps are designed with modular components, meaning faster repairs, less downtime, and simpler service—which technicians love.

WESTERN CAPE
INDUSTRIAL SUPPLIES

EBARA

Applications Where You Will Find EBARA Pumps:

1. Wastewater Treatment Plants – sewage, sludge, and drainage handling.
2. Building Services – water supply, HVAC, pressure boosting, and fire-fighting systems.
3. Industrial Plants – cooling, process water, chemical transfer, and boiler feed.
4. Irrigation and Agriculture – field irrigation, dewatering, and livestock watering.
5. Food and Beverage Industry – hygienic water handling and process water.
6. Mining – dewatering, slurry handling, and dust suppression.
7. Power Generation – cooling systems and condensate extraction.
8. Marine – bilge, ballast, and cooling applications.
9. Desalination Plants – high-pressure feed pumps and brine discharge.
10. Municipal Water Supply – potable water distribution and pressure boosting.

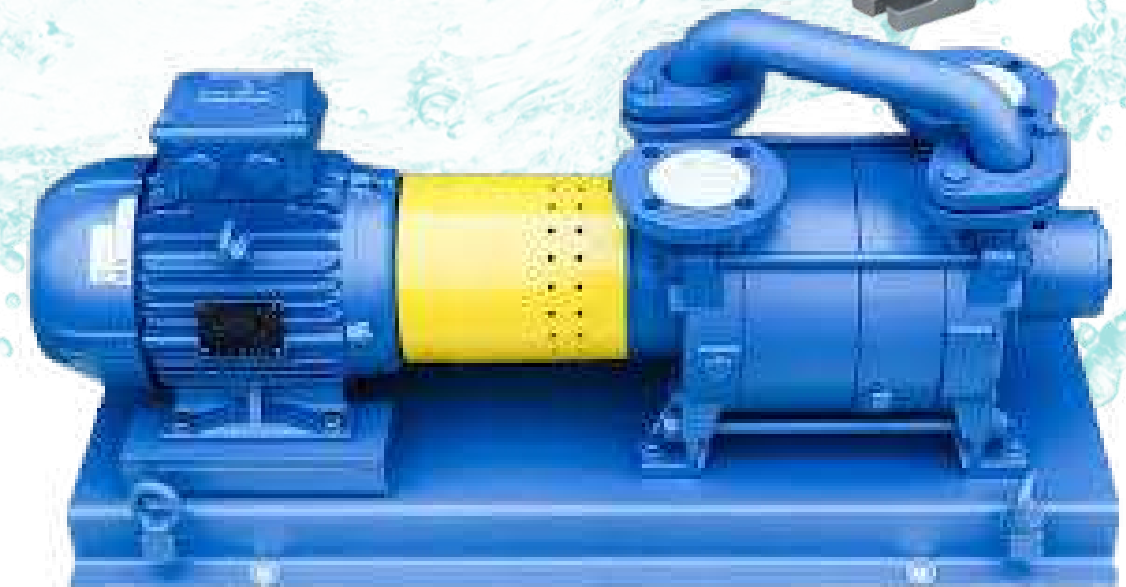

Vacuum Pumps

Why choose Western Cape Industrial Supplies?

- Right Pump, Right Job – Expert advice for your needs
- Top Brands – Reliable, proven equipment
- Full Support – From setup to after-sales service
- Fast Supply – Local stock & spare parts
- Great Value – Competitive pricing, no compromise
- Trusted Experience – Serving key industries with care

Types We Offer:

- Rotary Vane: Reliable, all-purpose vacuum
- Diaphragm: Oil-free and maintenance-friendly
- Liquid Ring: Handles moisture and contaminants
- High Vacuum Options: For labs and clean rooms

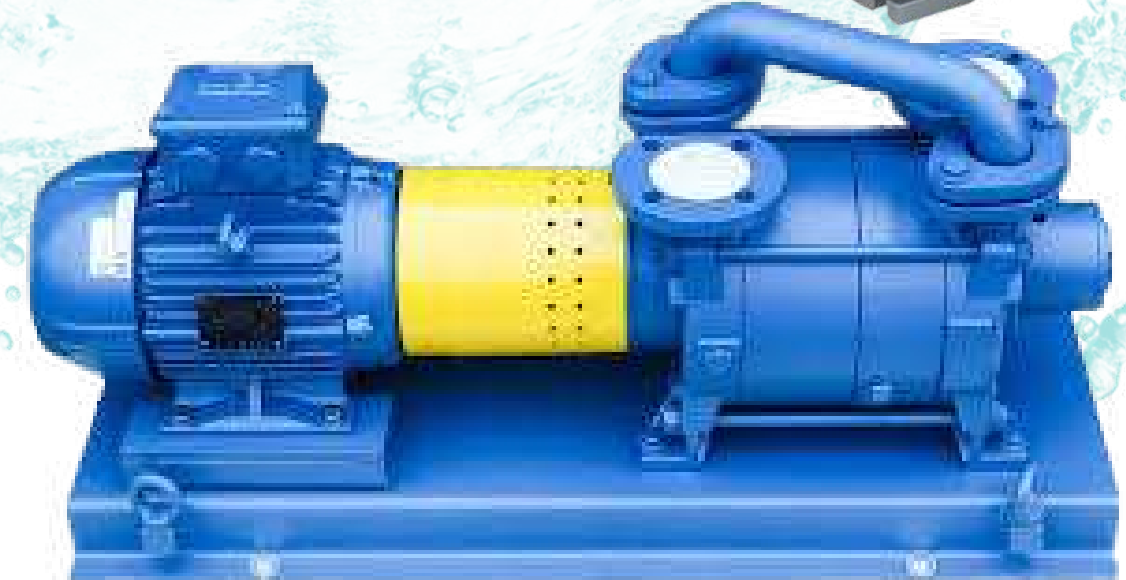

WESTERN CAPE
INDUSTRIAL SUPPLIES

Vacuum Pumps

Applications Where You Find a Vacuum Pump:

1. Food Packaging – vacuum sealing to preserve freshness.
2. Medical & Hospitals – suction equipment, sterilizers, and vacuum therapy.
3. Pharmaceutical Industry – freeze drying and tablet coating.
4. Laboratories – filtration, degassing, and vacuum distillation.
5. HVAC – evacuating refrigerant lines before charging.
6. Automotive – brake systems, fuel systems, and leak testing.
7. Semiconductor & Electronics – chip manufacturing and coating.
8. Printing Industry – paper handling and ink degassing.
9. Plastic Molding – vacuum forming and material drying.
10. Power Plants – condenser evacuation and turbine sealing.

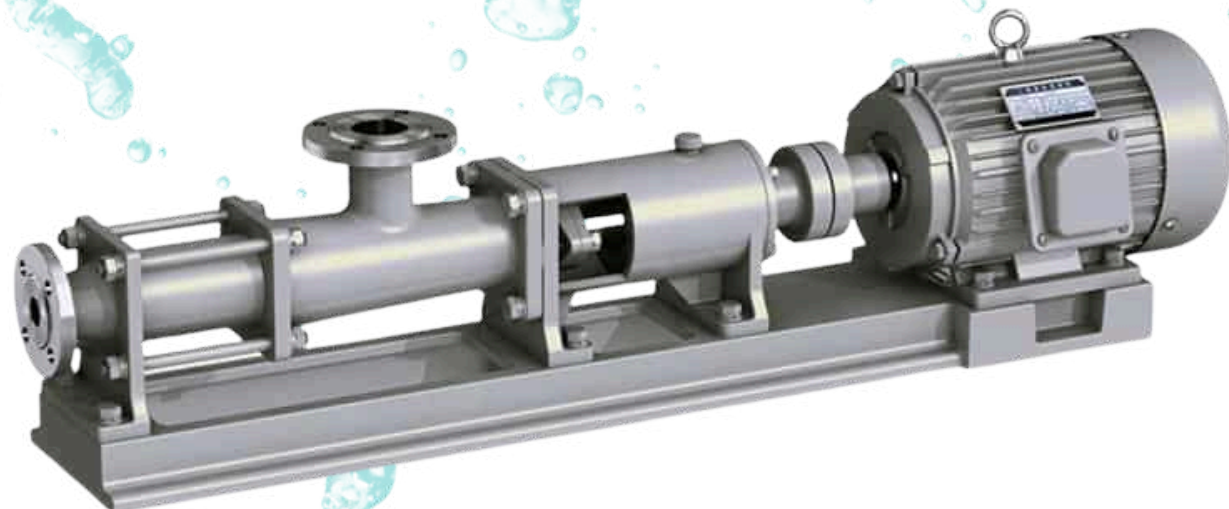

WESTERN CAPE
INDUSTRIAL SUPPLIES

Progressive Cavity Pump

- ✓ Handles thick, abrasive, and viscous fluids
- ✓ Smooth, constant flow – low pulsation
- ✓ Self-priming and low shear – ideal for sensitive media
- ✓ Works under high pressure and tough conditions

Why Choose Us

-  Expert support & fast service
-  Spares always in stock
-  Pumps sized to your needs
-  Trusted by industry leaders

Progressive Cavity Pump

Applications Where You Will Find a Mono Pump (Progressive Cavity Pump):

1. Wastewater Treatment – sludge, slurry, and thickened waste handling.
2. Mining – abrasive slurry and dewatering applications.
3. Agriculture – irrigation, manure transfer, and fertilizer dosing.
4. Food & Beverage – gentle handling of viscous or chunky products like fruit pulp, sauces, and dairy.
5. Oil & Gas – crude oil transfer and drilling mud.
6. Paper & Pulp Industry – thick stock and chemical dosing.
7. Chemical Industry – metering corrosive or viscous chemicals.
8. Construction – grout and cement slurry pumping.
9. Cosmetics & Personal Care – transferring creams, gels, and pastes.
10. Renewable Energy – biogas feed and digester pumping.

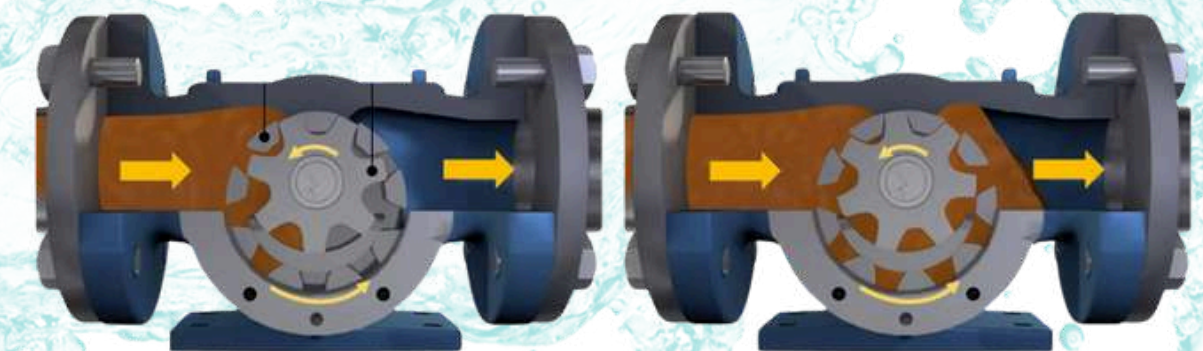

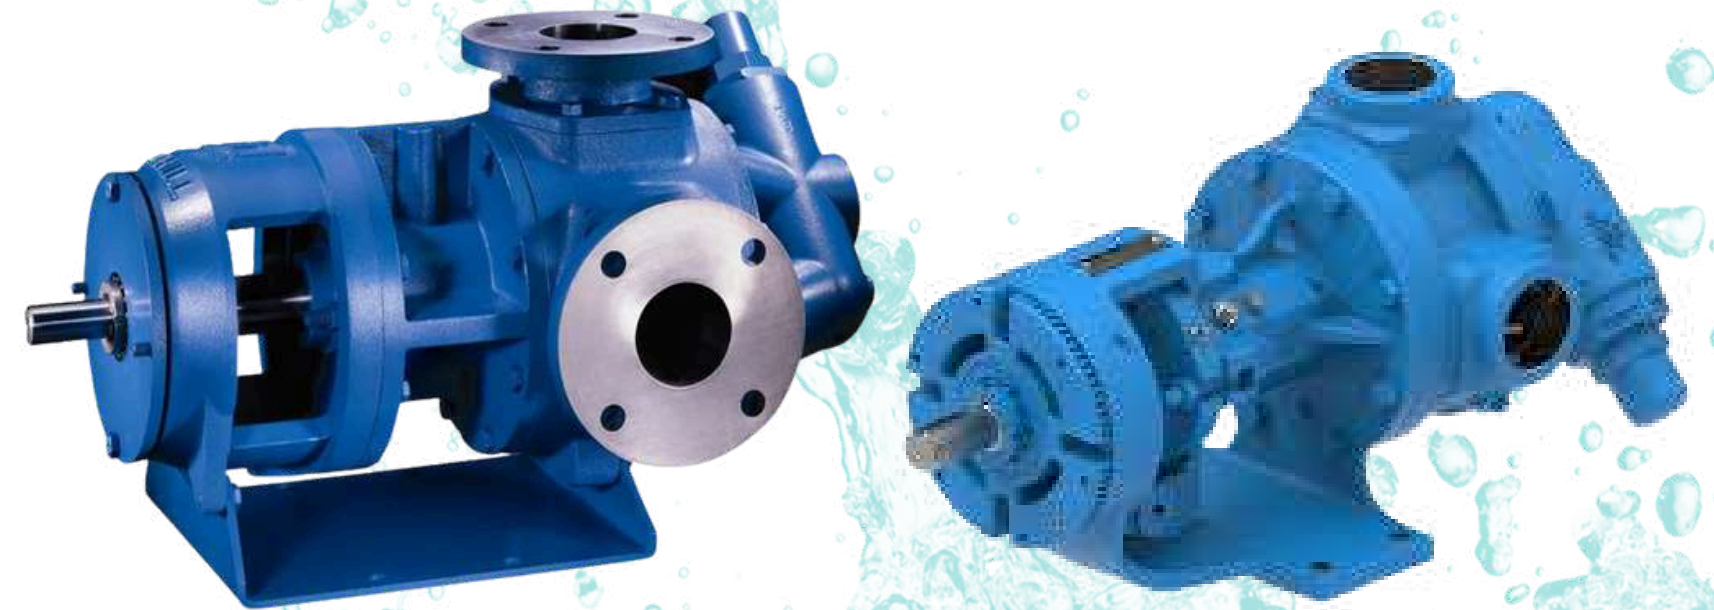

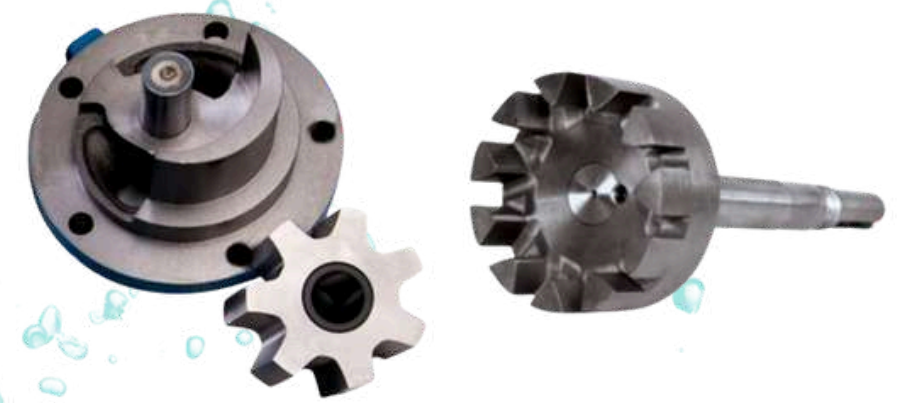

Gear Pumps

What Are Gear Pumps?

- Positive displacement pumps
- Use rotating gears to move fluid
- Ideal for consistent, non-pulsating flow

Key Benefits

- Handles Thick Liquids: Great for oils, syrups, fuels, and more
- High Pressure Capability: Reliable in tough industrial settings
- Compact & Low Maintenance: Few moving parts = less downtime
- Precise Flow Control: Ideal for dosing and metering

Gear Pumps

Why Choose Our Gear Pumps?

- Rugged construction
- Long-lasting seals and bearings
- Custom-built to your application
- Fast local support & spare parts

Applications

- Lubrication systems
- Fuel transfer
- Chemical processing
- Food & beverage

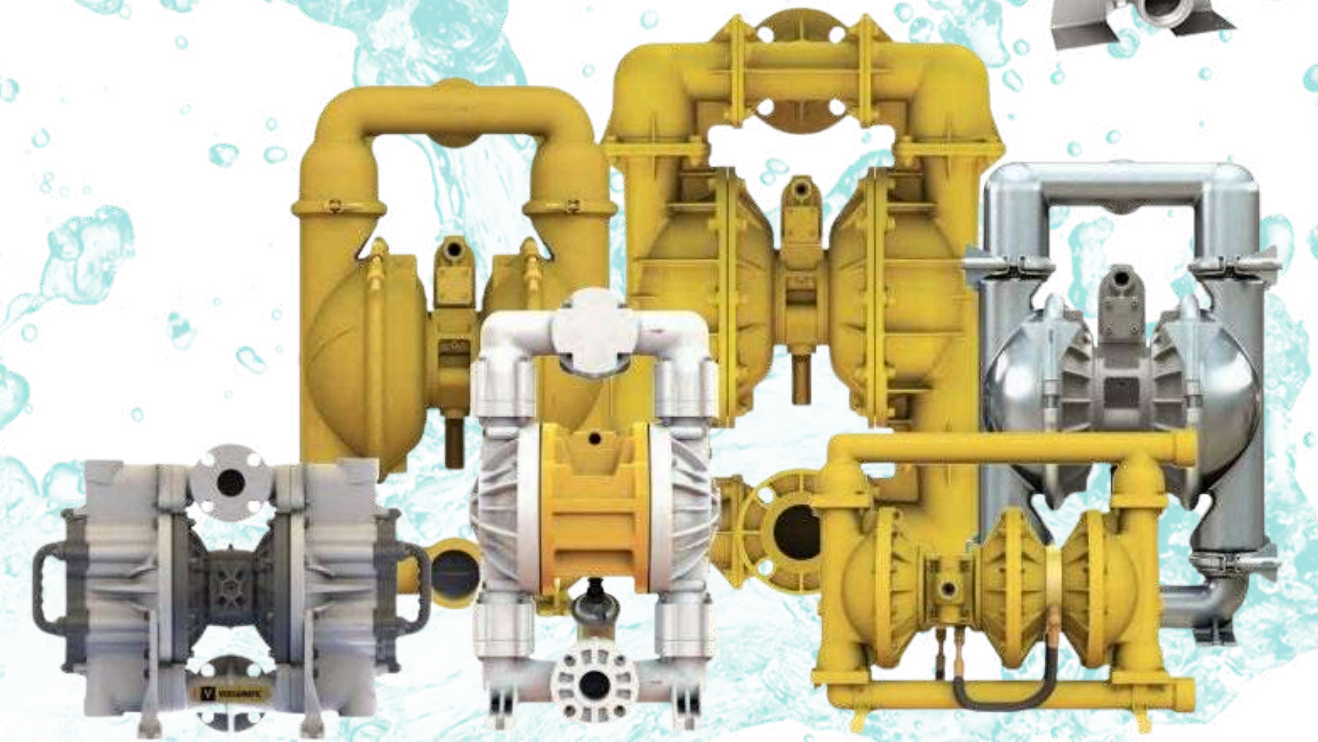

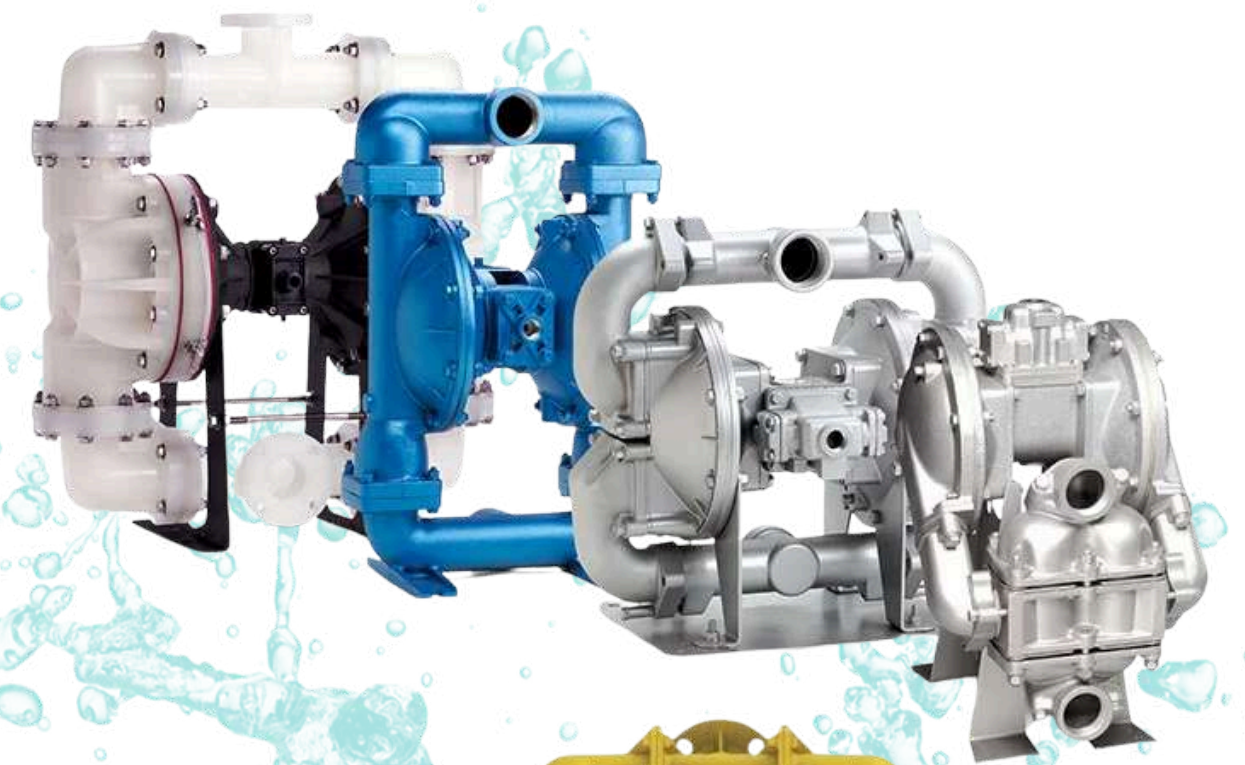

Key Features:

- Self-priming
- Can run dry without damage
- Handle viscous, abrasive, and shear-sensitive fluids
- Explosion-proof – safe for flammable or hazardous areas
- Portable and easy to install

Why Choose Air Operated Pumps?

- No need for electric motors
- Low maintenance, minimal moving parts
- Versatile for many fluid types and environments
- Ideal for remote or hazardous zones

AODD Pumps

AODD Pumps

Why Choose Us for Air Operated Pumps?

- ✓ Expert Knowledge – We understand your application and recommend the right pump for the job.
- ✓ Quality Brands – We supply trusted, reliable AODD pump brands with proven performance.
- ✓ Fast Support – Local service, technical help, and spare parts when you need them.
- ✓ Custom Solutions – We tailor pump setups for your exact needs – from aggressive chemicals to thick slurries.
- ✓ Competitive Pricing – Top value without compromising on quality or after-sales service.

Common Applications:

- Mining (sludge, slurry)
- Chemicals (acids, solvents)
- Food & Beverage (syrops, sauces)
- Paints and coatings
- Water treatment (dosing, transfer)
